### Event Description

#### The 'Joker'

The Joker fence is an optional fence and may be jumped instead of the last fence. However, a rider may only jump either fence 10 or the Joker, but not both fences. If the Joker fence is successfully jumped it will wipe **4 penalties** off the rider's total score. **But if the Joker fence is knocked down the rider will incur 8 penalties.**

### Time on course

The optimum time will be calculated at

**Class 1** 105cm - 425 metres per minute

**Class 2** 95cm - 400 metres per minute

**Class 3 & 4** 80cm - 375 metres per minute

**Class 5 & 6** 65cm - 350 metres per minute

**Class 7 & 8** 45cm - 300 metres per minute

### Number of Entries Permitted per Rider

There is no restriction on the number of entries permitted per rider, although riders may ride no more than two horses in the same class.

### Event Result

The rider with the least combined penalties for the two rounds of the competition is the winner. In the case of an equal score the rider with the closest time to optimum time in the first-round wins, or in the case of equality, the closest time to optimum time in the second round. In case of a dispute the Organising Committee will make the final decision.

### Championship Series Scoring

Points are awarded to the top five place getters in each class based on 5-points (1st), 4-points (2nd), 3-points (3rd), 2-points (4th) & 1-point (5th).

The scoring system then recognizes the degree of difficulty involved in placing in a class due to the number of the riders competing in that class and the height of the class.

Therefore the points gained by placing in a class are multiplied by the number of riders starting in that class (Round 1) and further multiplied by the height of the class, eg if a rider places second in an 80cm class in which there are 9 starters, the points earned would be 4 (2nd place) x 9 (number of starters – Round 1) x .80 (height of class), earning a total of 28.8 points.
